DSCI's Communications & Computers Division (XPRT Solutions, Inc.) Wins U. S. Navy Satellite Planning and Analysis Tool Contract

(Eatontown, N.J.) June 3, 2007 – D&S Consultants, Inc. (DSCI) today announced that XPRT Solutions, Inc. – A DSCI Company was awarded a U.S. Navy contract to develop advanced analysis methodologies for a unique toolset to determine performance of SATCOM systems using complex comprehensive computational models. The toolset will provide the military community with the ability to optimize the performance of a broad range of operational SATCOM options prior to deployment.

“Leveraging our expertise as a prime contractor, providing full lifecycle satellite terminal solutions through the U.S. Army’s World Wide Satellite Systems (WWSS) program, DSCI continues to fulfill its commitment to the military SATCOM community by discovering elegant solutions to complex problems,” said DSCI’s Chairman of the Board, President, and Chief Executive Officer, Steven A. De Chiaro.
